

Balanced grades 0-12-12 0-16-16 (Scotland)

Ideal for arable and grassland where balanced PKs are required

Potash grades 0-9-18 0-14-21 0-5-20

Perfect for lower potash soils, silage and potash demanding crops where that extra potash is required

Phosphate grades 0-20-10

Excellent for maintaining your soil P indices

Other nutrients typically present in all grades:

Secondary Elements

Calcium	18%	as CaO
Sulphur	8%	as SO₃
Magnesium	4%	as MgO
Sodium	4%	as Na₂O

Trace elements

Iron	4000ppm	as Fe
Manganese	1200ppm	as Mn
Copper	300ppm	as Cu
Boron	130ppm	as B
Molybdenum	5ppm	as Mo
Cobalt	2ppm	as Co
Selenium	2ppm	as Se

Neutralising value **15%** **as CaO**

Phosphate in all grades is >80% soluble in 2% citric acid
Potash in all grades is > 50% soluble in water.
